WARNER'S SAFE REMEDIES

WARNER'S SAFE PILLS

Are an immediate and active stimulus for a Torpid Liver, and cure Costiveness, Dyspepsia, Biliousness, Billious Diarrhœa, Malaria, Fever and Ague, and should be used whenever the bowels do not operate freely and regularly.

Their action is gentle than that of other pills, and at the same time more effective. No other pills require such small doses for thorough work.

They have been used with great success in the English army where Malaria prevails, and are the best antidote for all kinds of Malarial Poison.

People who live or work in unhealthy places, and those of sedentary habits, should use them. Taken at bed-time, they promote rest and bring on natural evacuations the next forenoon.

They do not act directly on the bowels, but indirectly through the liver, by causing it to secrete the necessary bile, and should always be preferred to pills which operate as a violent cathartic, causing nausea and weakness.

Price, 25 cents a Box.

WARNER'S SAFE NERVINE

Quickly gives Rest and Sleep to the suffering, cures Headache and Neuralgia, prevents Epileptic Fits, and relieves Nervous Prostration brought on by excessive drink, over-work, mental shocks and other causes.

Powerful as it is to stop pain and soothe disturbed nerves, it never injures the system, whether taken in small or large doses.

It often arrests the progress of serious diseases by the recuperative rest which it produces, and is beneficial in all painful diseases.

Warner's Safe Nervine is the improved discovery of the most skillful nerve doctor of the world, and an inestimable blessing to all who suffer. Bottles of two sizes: prices, 50 cts. and $1.00.

SAFE KIDNEY & LIVER CURE
SAFE DIABETES CURE
SAFE BITTERS NERVINE PILLS.
READ! Save Thyself

Warner's Safe Kidney and Liver Cure, Safe Diabetes Cure, Safe Bitters and Safe Tonic are also superior remedies, unequalled in their respective fields of disease.

Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country. Send for Pamphlet and Testimonials.

STOCKS AND MINES.

TO THE SHAREHOLDERS OF THE

QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1256 07.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time.

"FREIGHT TO YALE."

Under this heading Mr. BROWN, M. P. P. for New Westminster city, eases himself of a second lengthy communication in the *Herald* on the subject that is now agitating the province from Cariboo to Victoria; and, strange to say, Mr. BROWN actually acknowledges that the existing rate of the steamboat service is most unsatisfactory. He proceeds to state in support of his statement that "freight is carried from Victoria to Yale at four dollars per ton from Victoria to Yale; passage is the same price, while precisely the same rate is charged from New Westminster city or any part of the lower river to Yale, although the distance in many cases is less than one half." Having diagnosed the disease, Mr. BROWN proceeds to prescribe the remedy, as follows:

"What the people of this district require is a river steamer of their own to carry freights at reasonable rates and at stated times, and not be subjected, as they are at present, to combinations that are formed and carried on in the interest and for the benefit of Victoria traders. A joint stock company can be readily and easily formed to either build a suitable boat for the trade or purchase one from the Columbia or elsewhere. I am quite satisfied that no trouble would arise or be experienced in obtaining sufficient capital for such an enterprise; in fact, I already know of parties who would contribute very largely to such an undertaking. * * * The only requisite is a large and powerful freight-boat, one that can be run with economy, and carry freight from the entrance of Fraser river to Yale at the same rate as from New Westminster city to Yale, and thus place all our farmers on the same footing as regards supplying Yale and above with home produce. As soon as the coming harvest is ended, large quantities of hay, grain, &c., will be available for shipment to Yale, and to enable a market to be had for them at that place is a matter of the utmost importance, and no time should be lost in endeavoring to accomplish and secure such a desirable condition of affairs."

With all our heart we cry, Bravo! Mr. BROWN. You have struck the right chord, and if you do not awaken a responsive beat in the hearts of your constituents, they should be ashamed of themselves. If Westminster is dissatisfied with the character of her steamboat service, who has a better right to take steps to improve that service than Westminster? And who shall say her nay when she proposes to put a boat of her own on to run in opposition to a monopoly that her member describes as oppressive, extortionate and inefficient. But, friend BROWN, while you claim this right for New Westminster why do you and those who think and act with you seek to withhold from Victoria a like privilege? We don't agree with you at all. In fact we believe that your enterprise would tumble to pieces for want of support. Your true policy is to support a through line between Victoria and Yale. You would then get your mails and freight regularly; there would be no detention of passengers as at present; the charges would be less from Westminster to Yale than from Victoria to Yale; and you would be spared the spectacle, which must have often stirred your over-sensitive nature, of the misery and suffering endured by cattle through detention at New Westminster and transhipment from boat to boat. You have an indisputable right to invest your coin in any enterprise which you may think will advance the interests of your district. A reform in the steam service is urgently required and if you think that you can furnish a better and more efficient service then the present, form your company and go ahead. But don't attempt to deny Victoria the same privilege.

THE IMPROVED MAIL SERVICE.

Imperfect as the mail service between Victoria and the Interior still is, no one can say that it is not an immense improvement over the one until lately in force. Mails are now received at Victoria, New Westminster and Yale three times instead of twice a week, as formerly, and without very great detention at New Westminster either way—although, owing to the partial failure of the steamboat connections as promised in the advertisement, a longer stay is made at the Royal City than was contemplated at first. In a little time it is hoped this irregularity will be cured, and a perfect system of regularity and speed in the movements of the boats secured. Yale, and the districts above Yale, contribute most to the postal revenue, and while the interests of New Westminster are well guarded under the new system those of Yale, etc., have also been carefully considered and protected. It would never do to subordinate the movements of the postal department to the fancied requirements of any particular district or section. Under the old arrangement a foreign mail that reached Victoria between the semi-weekly trips to New Westminster remained here from two to three days before it could be sent on to the Mainland. Under the new arrangements a mail arriving at Victoria (say) on Sunday will leave the next morning for the Mainland; and so on throughout the week. In no case would the period of detention equal that obtained under the old system: Take a mail bound from Yale to Victoria under the late system: It arrived at New Westminster on Monday afternoon and did not reach Victoria until two days afterwrrds. Now it reaches Victoria on Tuesday morning and sometimes on Monday night. Is not this an improvement? When the through boat shall have resumed her trips the service will be still more improved, and a mail leaving Yale in the morning or New Westminster in the afternoon will arrive at Victoria the same evening; and *vice versa*. We observe that the N. W. *Herald* objects to the present arrangement, asserting that the time afforded the merchants of that place to answer their correspondence is insufficient. We should imagine that from four to fifteen hours would be a sufficiently long period in which to answer even lengthy letters; but suppose it were not — what possible harm could result from the laying over of the correspondence for one, or at most two, days? For the past fifteen years Victoria has patiently submitted to her mails remaining two days at New Westminster; and now that an arrangement has been made to send those mails on to their destination with but a few hours' detention the *Herald* declamis against the "outrage." Paris is France; but New Westminster, (albeit it is an energetic place,) is not British Columbia by a long way. The mail service is designed for the convenience of the *whole province* and not for a corner thereof; and the interests of the merchants of Yale and Victoria are as much to be considered as those of New Westminster.

FACTS VS. FICTION.

Our contention that it is not Westminster's trade and commerce that is affected by the transhipment of passengers, goods and cattle at New Westminster has received an unexpected verification. On Friday the Yale steamer brought to New Westminster eighty-seven head of beef cattle. Of this number ten were sent across to Burrard Inlet; fifteen were dispatched to Nanaimo; ten remained at New Westminater, and *fifty-five* were transferred to the steamer Enterprise and arrived yesterday for consumption at Victoria. Thus, it will be observed, in one single transaction of cattle alone Victoria stands in the relation of 5½ to 1 as compared with her great rival (?) on the Fraser; and in respect to mails, merchandise and passengers the latter occupies an equally unfavorable position. These are facts. The statements in the Westminster memorial of January last are fiction.

On to Yale.

TO THE EDITOR OF THE COLONIST:—Sir,—I have recently heard with much pleasure several items in your columns regarding direct communication with Yale. I think it must be now fully a month ago since the idea was mooted of buying the Western Slope and putting her on the route. The proposition struck everyone as very good. The shipping season is now passing by and the steamship Victoria continues her trips to New Westminster. Still we do not seem to be much nearer the consummation of the desirable change unless you can call the issuing of some sort of a prospectus of the "B. C. S. Navigation Company," without a single name attached much of an advance. Are there not some men in the place owning tens of thousands of dollars in town and country possessions with enough pluck and enterprise to come forward and put this scheme through *without another* day's delay? Action, and *not talk and moral force*, is what is required, to remedy what is universally admitted to be an evil. It does not look well for the enterprise of the people of Victoria if they cannot subscribe $50,000 or $60,000 for such a purpose. It is the duty of the wealthy landowners and financially prominent men to take hold of this enterprise in a liberal and no niggardly way. This trying to distribute the stock so universally looks to me very much as if they were endeavoring to shirk their duty.

The new arrangement of the H. B. Co.'s steamer time is a great convenience to the travelling public; but the railroad contractors and other up country freight will still continue to come as it does now, until the Victoria people provide other means of shipping with only the one handling. No one can blame the contractors for what they are doing. Their object is to make as much money as they can out of their job, little caring whether Victoria suffers or New Westminster profits.

I observe that the meeting of the creditors of the owner of the Western Slope is postponed until the 15th inst. Surely the question of the purchase of this boat is not going to be laid over until that time. In a matter of so much importance not a day ought to be lost. VOYAGEUR.

"Or Ever the Golden Bowl be Broken."

—*Eccles.*

Sadly in the darkened chamber
Gather friends once well beloved,
And the voice speaks low in whispers
And the heart is strangely moved.

On the bed a pallid dreamer
Passes slowly from the earth;
Ne'er they think, as soft she slumbers,
Had they known so well her worth.

Sorrowful, they now remember
Every kind unselfish deed,
All her sympathy for others
Proffered in each hour of need.

See—they gather closer, closer,
Hark, the gurgling, half-drawn breath;
Now the eyes are closed forever
And the soul is lost in death.

Cover o'er the senseless body,
Steal with noiseless step away,
Each to weep alone in silence
For the sorrow of the day.

Years will pass, and dry in passing
Tears which now are freshly wet;
But when hearts are draped in mourning
They can nevermore forget.

Though the birds sing through the woodlands,
There is sorrow in their tone;
Though the sun shine on forever
All his glorious light is gone.

Though the sea on murmuring shingle
Plashes up its limpid wave,
Lo! the soul in gloom is weeping
Mid the silence of the grave.

New Designs in Furniture.

The traditional parlor set is rarely seen nowadays. Instead are a sofa and two large arm-chairs to match, covered, say with Persian raw silk, while the rest of the room is filled with odd pieces—an S chair, an embroidered chair or two, an Eastern divan, a Moorish pouf, which is merely four cushions piled in a slender frame, and as many fancy chairs of gilt or ebony as may be needed. The mantel lambrequin, the curtains, and the portiere match the sofas and arm-chairs, unless they are specimens of artistic embroidery, in which case the foundation must match the prevailing tint of the room.

Fancy tables, with standards of gilt or ebony, have the tops upholstered with plush or raw silk either to match sets or as odd pieces. These same tables, covered with cretonne or mummy cloth in cretonne designs are much liked for bed-rooms. Indeed, cretonne and mummy cloth in cretonne designs play an important part in house furnishing. A favorite idea is to furnish bed-rooms throughout with these, having the whole furniture—bed, chairs, dressing table, and small table—covered with cretonne, the curtains and mantel lambrequin being of cretonne also, the carpet suiting in tone, and the very paper of the room manufactured in the design and color of the cretonne selected for the purpose. It is an easy matter to convert any old chair, which is strong enough to hold together, into an available seat by cushioning it and furnishing it with a cover of cretonne. Mummy cloth in cretonne designs is much handsomer, as well as more durable than the ordinary cretonne, inasmuch as it is a heavier fabric. The new designs are in Persian patterns, and in Japanese figures, as well as in the myriad of floral designs which have always been, and always will be, liked for the chamber draperies. The new cretonne curtains are made with dado and frieze of some contrasting pattern, and an especially pretty style has a drapery to match frieze, festooned just below it across the curtain. Bands of the trimming fabric hold back the curtain on each side. Solid-colored mummy cloth is liked for library and sitting room curtains, the border being velvet, or not unfrequently of plush, held on with embroidery stitches in gaily-colored silks.—*Philadelphia Times.*

CONTRADICTION.—My attention has been drawn to a notice in *The Colonist* to the effect that S. H. Glover conducted the business of the Commission Store, Johnson street, for 3½ years. S. H. THE REPUBLICAN CONVENTION.

NO NOMINATION YET.

[Exclusive Dispatch to The Colonist.]

CHICAGO, June 4.

The committee on resolutions have agreed to report a resolution condemnatory of Chinese immigration.

CHICAGO, June 5—10 a.m.

It is possible that the convention may finish its labors to-night, but the probability is that it will not reach a final adjournment before Monday.

CHICAGO, June 5—Evening.

No ballot has yet taken place. Grant and Blaine men confident. Belief outside is that former will be nominated. If so, a formidable split in the party will result.

Cricket.

The match which took place yesterday at Beacon Hill between a team selected from H. M. S. Triumph and the Victoria Eleven attracted a very numerous concourse of spectators, amongst whom were many ladies. The home team went to the bat first and by good play put together a total of 136, Bennett contributing a splendid innings (not out) of 64, Layton scoring a careful 16 and Tye making the only other double figures (11.) The Triumph eleven in their first innings succeeded in obtaining only 26, the bowling of Pooley and Eberts being altogether too effective for them, and in their second innings they fared even worse, having to succumb with eight wickets down, for the meagre total of 15. The Victorians thus won the easiest of victories by 110 runs on the first innings. The bowling of Coddington and Charlton for the Triumph Eleven was at times good, the latter gentleman being credited with 13 and the former with 10 maiden overs. During the afternoon the splendid band of the flagship, by kind permission of Admiral Stirling, was in attendance and delighted the assemblage by performing a number of beautiful musical selections.

LeClaire in Mid Air.

The ascension made last evening by Professor LeClaire in his monster balloon, the City of London, was witnessed by two-thirds of the community. The inflation process took place, as on the previous evening, on the vacant lot near the the corner of Yates and Quadra streets and at half-past eight o'clock the balloon glided gracefully upwards carrying with it Le Claire, poised upon the single trapeze attached. Gradually the æronaut was lifted higher and higher—performing in his flight a variety of difficult feats on the trapeze—until at last he assumed the proportions of a Liliputian. Then the balloon began to descend steadily and finally reached *terra firma* again at the corner of Yates and Blanchard streets, less than a block from where it started. The entertainment which followed in the large tent was numerously patronized, the educated pig, the acrobats, the man with the iron jaw and the lady who extracts herself from the bondage of a hermetically sealed case, all being accorded hearty applause.

Municipal Police Court.

[Before Hon. A. F. Pemberton.]

MONDAY, June 5.

Charles Blackshaw was convicted of selling an intoxicant to an Indian and fined $100, or in default two months' imprisonment.

One d. & d. was disposed of by the imposition of the usual fine.

An Indian was charged with stealing a clock from a Chinaman, but as the case was somewhat mixed the prisoner was bound over in a cash deposit of $20 to be of good behaviour for six months.

THE steamer Enterprise arrived from New Westminster yesterday at 10:45 a.m. with 20 passengers and 65 head of beef cattle. Thirty head were landed at Cadboro Bay for Vanvolkenburg & Co. and thirty-five head brought to this city for Goodacre & Dooley.

Supreme Court.

[Before Chief Justice Sir Matthew Baillie Begbie, Mr. Justice Crease and Mr. Justice Gray.]

SATURDAY, June 5.

Regina *vs.* the McLeans and Hare—Argument in this case was resumed at 10:30 a.m.

The Attorney-General said that since yesterday he had had the advantage of reading the Chief Justice's report to Ottawa and found that most of the points on which he intended to rely were there raised. He then proceeded to argue that the Act 37 Vic., cap. 42, sec. 5, gave the Supreme Court full power to try criminal cases without a commission. That the question as to the issue or non-issue of a commission is not a question of procedure but of prerogative—had it been one of procedure the Province would have had no right to deal with it. The mere appointment of a justice of the peace was a matter of prerogative, and so was the appointment of a commission of oyer and terminer or nisi prius with or without commission. He then proceeded to present argument in favor of his second point, viz: that if commissions are necessary then the Lieut.-Governor cannot issue them because the power to do so is confined to the Sovereign or the Governor General as the representative of the Sovereign. A prerogative right could not be delegated by the party to whom it had been confided by the Sovereign. In support of his contention the learned counsel quoted from Chitty and other authorities. He then explained the difference between the lieut.-governors in Canada in early days and the lieut.-governors of to-day.

The Chief Justice—Everybody knows what a lieut.-governor is, Mr. Attorney.

The Attorney-General—Well, my Lord, I was not aware that your Lordship was thoroughly conversant with upper and lower Canada.

The Attorney-General then quoted from the British North America Act to show the powers vested in the Lieut.-Governor and how they were obtained. The only prerogative rights the Lieut.-Governor had were opening and closing the legislature and assenting to or refusing his assent to bill.

Mr. Justice Gray—There is another very important prerogative he has, Mr. Attorney, and one that very closely concerns you. He has the power of dismissing his ministers.

The Attorney-General—Yes, your Lordship, and of appointing them again.

The Attorney-General then quoted from the text of the present Governor-General's commission to show that he had the prerogative power delegated to him of appointing all judges, and with that right the right of course to issue commissions. The learned counsel also read an affidavit made by the Lieut.-Governor in which his Honor states that he appended a true copy of his commission but that he never received the instructions therein referred to.

The Chief Justice—Even if he did receive them they would not be sufficient to give him power to issue commissions.

The Attorney-General having submitted his third point, that if commissions issued by the Lieut.-Governor were valid the trial of the prisoners was also valid by virtue of the commission of November 1879—read the Order-in-Council advising that the commission be issued and a communication from Messrs. McCreight and Robertson, Crown law advisers, stating that, in their opinion, no special commission was necessary for holding the Court at New Westminster. The Attorney-General explained that the general commission of November, 1879, was issued he believed with the approval of at least two of the judges. It was intentionally of an expansive character for their convenience and to avoid any difficulty that might arise from the commission being left behind when a judge went on circuit.

Mr. Justice Gray—Why, then, if the general commission issued in November, 1879, was of such an expansive character, was it deemed necessary to issue another commission on March 8th, 1880?

The Attorney-General said that he was absent from the Province at the time and it was possible that the other members of the executive were not aware that the commission of November contained the peculiarly expansive provision.

Mr. Justice Gray—Although you were absent the Government was still in existence and the sudden change in policy seems strange.

The Attorney-General—The matter was purely a legal one which came particularly under my notice.

The Chief Justice then pointed out very clearly that in the commission of November last as well as that of March an attempt had been made to depart from the course pursued in all former commissions by making them returnable to the Lieut.-Governor instead of to Ottawa. The attempted innovation was relinquished in November and the old form adhered to, but, strange to say, in March a further attempt was made to make the commission returnable to the Lieut.-Governor.

The Attorney General contended that the Lieut.-Governor, if he had a right to issue commissions, had no right to step out of the confines of this province and make them returnable to any pigeon-hole at Ottawa.

Mr. Justice Crease said that he had offered to hold the Court, even under the commission of March 8th, on the understanding that if any failure of justice took place he should not be held responsible for it.

The Chief Justice remarked that only a short time since he had held two Courts at Cassiar and on his return had proceeded to Clinton, there to hold an assize. Mr. Robertson was then acting on behalf of the Crown. Shortly after they arrived at Yale a telegram reached them telling the Court to wait—no commission had been issued. His Lordship, just six weeks before that, had received a commission which at the very time the telegram came to hand he had in his pocket. It was evident that the executive, whoever they might have been at that time, had actually forgotten what had been done only six weeks previous. The consequence was the then acting Attorney General had chartered a special steamer to carry the new and unnecessary commission to New Westminster, special messengers had been hired, swift canoes employed and the business of the Court suspended all for what? Nothing. The fact was an illustration of the value to be placed on the record of commissions issued which had been produced by the Attorney General and was evidence that the executive then deemed the presence of a commission when the Court opened of the greatest importance.

After further argument the Attorney General suggested that the Court adjourn until Monday when Mr. McCreight would open his argument.

Mr. Bole applied for an adjournment until Tuesday next at 11 a.m. as he was obliged to proceed to New Westminster on business of a most urgent nature. In any event he would be compelled to go.

The Court granted the application and then adjourned.

Yale.

We quote from the *Guardian's* pleasant correspondent:

May 30th—The man Flynn, who was injured by the premature explosion of a blast at the tunnel, on Thursday last, died on Friday morning; the particulars of this case are fluctuating, but the facts are that there were more holes than one charged, the first got off all right, the second hole produced a fient, and the men, supposing the shot went off, carelessly rushed in, when the explosion took place, injuring 4 or 5—but one fatally—as above mentioned. No one is to blame, save the impetuosity of the men themselves; however, foremen should have their men under perfect control, and the strictest discipline ought to be insisted upon with regard to the foreman's orders.

June 3rd—I have much pleasure in informing you that the country is safe; in tunnel No. 2, a rich quartz lead has been struck, which set one-half of our stock holders—if it does not kill the one-half of them—in a state of excitement; it is reported to be unquestionably a good thing; hope it is.

Mr. McLeod, C. E. of the C. P. R. S., was robbed a few nights ago; the culprit made his way up the wagon road, had a good time at Chapman's Bar and Boston Bar, reached Lytton, introduced himself to our old and popular Hautier; sang two verses of the Marseillaise Hymn, which raised the hair on the old man's head like the quills on the fretful porcupine, and, in requital, he ginned him up free; from there he proceeded to the Baily Hotel, where he represented himself as an agent of Mr. McLeod—the man he robbed—borrowed money, and took, some say, for Cache Creek; others say he crossed Nicomen Mountain and put out for Nicola Valley; there, perhaps, he committed some more depredations in that peaceful settlement.

A great number of business men are here just now, with the intention of putting up houses, but they can't obtain licenses, thereby retarding business and public improvement. When the Act of 1873 was passed nobody save one or two anticipated that Yale would be what she is to-day, therefore these men should be granted licences, and any deviation from the statute, by an order in Council, can be made right the next session of Parliament.

New Westminster Items.

[Guardian.]

A correspondent at Chilliwhack says:—The probabilities are we will be agreeably disappointed this year respecting high water; should this weather continue a fortnight longer it will have passed away without causing inconvenience. The telegraph party have set all the poles on Sumass Prairie this side of the lake, and are at present working on York's Prairie. New wire will be used from N. W. to Matsqui, so as not to interrupt communication. Capt. Jemmett and party, of the Indian Reserve Survey, arrived here on Wednesday.

The Star Dramatic Company are playing at New Westminster to good houses.

[Herald.]

The steamer Hylton Castle is telegraphed to leave San Francisco for this port on the 12th.

After Monday next, we understand, the steamer Royal City, of the Pioneer Line, will be hauled off the Yale route, there not being enough business for two boats. A return to two trips per week is spoken of.

On Thursday evening last, Mr. W. B. Kyle, Agent of the Pioneer Line here, while playing baseball, stumbled on a piece of rough ground and dislocated his ancle, rupturing one of the smaller tendons. No permanent injury is feared, but it will be a good fortnight before Mr. Kyle will be able to attend to business again.

Willard the Wizard.

This astounding performer entertained a numerous audience last evening in the tent at the rear of Odd Fellows' hall. Next to Hermann Willard bears off the palm. Most of his tricks are very neatly executed. He cuts a man's head clean off and deposits it on a table in full view of the audience. Allows one of the audience to put three marked bullets into a gun and fire the weapon pointblank at him, catching the bullets in his mouth. Eats liquid fire from a blazing dish with a keen relish. Swallows a two-foot sword and seems to thrive upon such food. Draws burning tow and vari-colored ribbon from his mouth. Plays tricks with cards that would make a sharper turn green with envy, and winds up the entertainment with a witty and new Punch and Judy show. Willard is a remarkable young man—clever, entertaining and brilliant. He will perform again to-morrow evening.

ISLAND MAPLE.—Although the varieties of British Columbia hardwoods for commercial and manufacturing purposes are limited, yet they are not so scarce and so difficult to obtain as is generally supposed. Mr. Jacob Sehl of this city is utilizing maple and white pine lumber of island growth, and cottonwood from the Fraser in his recently enlarged and extensive furniture manufactory. The maple makes up very handsomely into bedroom sets, whatnots, cabinets, sideboards, &c., and is susceptible of a high polish. White pine is fully equal to the eastern article. Both descriptions of timber are at present obtained chiefly from Comox district. Fraser river cottonwood is also answering a good purpose at these works.

THE STAR DRAMATIC CO.—This company performed two nights at New Westminster to crowded houses. The audiences were so delighted with the entertainment that the company will not return to Victoria until Tuesday. They will play at Theatre Royal on Tuesday and Wednesday evenings—farewell performances.

"GLADSTONE."—The celebrated stallion Gladstone, imported by Mr. E. Grant, has been purchased by Mr. F. Ruch. We believe the price paid is $1300. Mr. Ruch has an extensive stock ranch near Kamloops, where Gladstone will stand for the season, as per advertisement in *Weekly Colonist.*

DENTAL.—Mr. R. B. Thompson, Dentist, having removed to his new rooms in Masonic Building, Government street, immediately over T. Wilson & Co.'s dry goods store, will be prepared to attend to patients there at and after 9 o'clock tomorrow morning. *

STEAMSHIP HYLTON CASTLE.—This vessel, with 2000 tons of Wellington coal for San Francisco, sailed at 4 o'clock yesterday afternoon. She will sail for Victoria again on the 12th inst.

THE TRIUMPH.—Invitations have been issued for "hop" on board H. M. S. Triumph on Thursday next.

NANAIMO.—The ship B. P. Cheeney has arrived for Wellington coal.

The selection of Lieutenant Fitz George, son of the Duke of Cambridge, as Private Secretary to the new War Minister, is taken as evidence that Mr Childers intends to work harmoniously with the Horse Guards.

By an Order in Council the Queen has approved of the "five gallon measure" as a new denomination of standard, and directs that the same shall be a Board of Trade standard in like manner as if it was mentioned in the second schedule to the Weights and Measures Act, 1878.

Miss Neilson received a cablegram from the manager of the Haymarket Theatre in London, on the 15th inst., offering her an engagement on the most favourable terms. Her response was: "Impossible. I shall make no more engagements either in Europe or America this summer. I retire from the stage next week."

Of the 60,000 men in the navy, upwards of 7,000 are registered abstainers, and more than one-half of the 4,000 boys in training-ships have signed the pledge; while among the officers' branch there are 158 members of the National Temperance League. In the army the estimated number of abstainers is about 20,000.

The Bristol election cost £22,000. Messrs. Morley and Fry's share of this was £8,000, Sir Ivor Guest's £6,000, and Mr. Robinson's £8,000. Mr. Robinson polled a little more than 4,000 votes, each vote costing him only a couple of pounds, and Mr. Robinson, like Sir Ivor Guest, pays every shilling out of his own pocket.

The Earl of Zetland has refused to accede to the request of the commissioners of Grange-mouth that he should rescind his order to close all the houses for the sale of liquor on his estate, which includes the land in that burgh. In his reply his lordship says that four-fifths of the ratepayers and all the clergy have, in a memorial, expressed their thanks for his decision, and that they are the best judges of their own interests.

After the Royal Academy dinner Mr. Bret Harte was presented to the Prince of Wales by General Van Alen.

The lessees of Drury Lane, Covent Garden, and Her Majesty's have determined that after this season a picked guard from the Household Brigade shall no longer be detailed to parade in front of the opera houses and in the entrance halls on opera nights. They are merely ornamental, these splendid red-coated fellows, with their handsome bearskins, their gleaming arms, and their air of resolution, as they march to and fro like sentinels defending a redoubt: they are of no possible service; in case of disturbance there are plenty of policemen; but they add enormously to the picturesque appearance of the approaches to the opera houses.

Great sales have been taken place in England of valuable articles of vertu, some of which have changed hands at fabulous prices. Money seems to be getting more plentiful. The price of horses has risen considerably during the last few weeks, particularly in the matter of fine carriage horses. A good sign, showing that people who were obliged by the bad times last year to put down their carriages are in improved circumstances, and are rapidly taking them up again.

Vanity Fair says:—The Prince of Wales is well-advised to make friends with the Mammon of unrighteousness; but he has been perhaps a little prompt in doing so. On Wednesday last Sir Charles Dilke and Mr. Chamberlain dined at Marlborough House, and had their names duly published. It is only a few years ago since the Prince was very severe, not only upon Sir Charles Dilke, but also upon those who were so disloyal as even to know that able young baronet. It is sudden.

The *Times* has established communition by telephone between the ante-room of the reporters' gallery in the House of Commons and the *Times* office. The transmitting end at the House is in a cabinet, closed to shut out the sounds of footsteps and noise generally, and there can be little doubt but that the new system will enable the newspaper to publish fuller intelligence of Parliament up to a later hour than formerly. The *Daily News* attempted a similar experiment some time ago, but in the absence of the inclosing cabinet the messages transmitted were received with the accompaniment of all other sounds prevailing in the transmitting room, and were unintelligible.

After the poll in North Lincolnshire, Sir John Astley (of "belt" celebrity), the Tory candidate, whose speeches have more than once been suggestive of artificial stimulants, said:—"Gentlemen, I am very sorry I have got the place I have, at the bottom of the poll. I should have much liked to have got in again with my friend Mr. Winn, but I may say that I should not care about getting in with one like Mr. Laycock. I shall never have another trial, that I will take my dying oath of before you all. I believe that we, as country gentlemen, ought to look to the laurels of the country, and when we see such men in Parliament as have been returned this time ——" Groans, hisses, and applause, the remainder of Sir John's speech being inaudible. The *Mark Lane Express* observes that it is earnestly to be desired that Sir John will maintain this solemn resolve.

Oswald Puckeridge, a retired publican, of Minster, England, has been sentenced to six weeks' hard labor for causing the death of a valuable dog. The prisoner painted the dog all over with the Liberal and Conservative colors, and the animal was poisoned through licking the paint off. The prisoner gave notice of appeal.

Lady Elizabeth Biddulph was a power in the recent political canvass in Great Britain. In a speech before an immense audience, which vociferously applauded her, she said:

"Gentlemen, these are election times, and uncommon times, and we are at present allowed to do things we don't do at other times, so I will make that my excuse for addressing you, and will make you a little speech. Mr. Biddulph cannot be here to-day, but I am here as his wife and representative, and I ask you to put him at the head of the poll, and make him a happy man and me a happy woman. He has your interests at heart, and nobody loves the country more than Mr. Biddulph, I declare to you."

The Cunard line has extended its operations to India. The first steamer the Batavia, arrived at Bombay in March.

London *World*:—"I guess you're full of fleas," said a fashionable American beauty to a young English lady. The latter blushed vividly, and was about to repudiate the imputation indignantly, when it was explained to her that her interlocutor merely intended a compliment to her sprightliness and vivacity.

A large manufacturer saw a workman who asked him for employment, saying pitifully: "Monsieur, I have fourteen children." The manufacturer, who is a political economist, shrugged his shoulders and answered: "In your situation it is absurd to have so many." This remark was heard by the manufacturer's son, a boy of eight years. Several days later he was walking with his father, when a poor little girl begged charity of them, saying: "I have eleven little brothers and sisters." The boy gave her a sou, but, moved by ideas of political economy, said: "In your situation how dare you have so many as that."—*French.*

GENTLEMEN:—"A lady of over 70 years of age, in failing health for over a year, has been using Warner's Safe Bitters on my recommendation. She feels very grateful for the benefit she has derived therefrom, and says that until she used it her stomach could bear no vegetable food for over three years. I believe it to be a certain specific for dyspepsia. Warner's Safe Pills are also meeting with very good success, in all forms of Liver Complaints, Malarial Troubles, Dumb Ague, and wherever a safe and efficient cathartic is required. I cannot speak too highly of them."

Holiday Presents.

Make your wife a present of a cooking stove or range manufactured at the Albion Iron Works, and you are bound to have a Christmas and New Year's dinner worth eating.

They are the pride of every household and when you go home to your meals, your wife will meet you with a smile and a well-cooked meal.

These are the only stoves that contribute to domestic happiness.

Testimonials without number.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectric Oil. Read the following and be convinced:—Thomas Robinson, Farnham Centre, P. Q., writes "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horse in cases of cuts, wounds, etc., and think it is equally as good for horses as for man."—A Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public "one of the best medicines ever used;" it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusan, Township Percy, writes, "I was persuaded to try Dr. Thomas' Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."

BEWARE OF IMITATIONS.—Ask or Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cents. WILLARD'S NOVELTY.—A man decapitated in broad daylight in full view of the audience! Cabinet of Ghosts! Ventriloquism! Magic! Royal English Punch and Judy! Startling sensations! Fire King and Sword Swallower late of Woodward's Garden! Will exhibit for a few days in the tent rear of Oddfellows Hall, Douglas street, commencing Thursday evening, at 8 o'clock; doors open at 7. Good seats; admission 50 cents; children half-price; reserved seats 75 cents. *

TO MINERS.—Should you be bound for the Skaget mines, if you will call on Fell & Co., Grocers, Fort street, reliable Information will be furnished you as to the best route and the necessary outfits required for your trip.

RHUBARB FOR PRESERVING.—Grown on good sweet soil at 2 cents per pound at Shore & Co's., corner of Douglas and Pandora streets. *

FOUND.—The Victoria people have found out that the best and cheapest place to buy dry goods is at the White House. *

Various Causes—

Advancing years, care, sickness, disappointment and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light and red hair to a rich brown or deep black as may be desired. It softens and cleanses the scalp, giving it a healthy action and removes and cures dandruff and humors. By its use falling hair is checked and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brashy, weak or sickly hair, to which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing and is especially valued for the soft lustre and richness of tone it imparts. In contains neither oil nor dye and will not soil or color white cambric, yet it lasts long on the hair and keeps it fresh and vigorous. For sale by all dealers. 3dw

Chronic Constipation Cured.

PHILADELPHIA, Pa., Oct. 4, 1879.

H. H. WARNER & CO:—GENTS:—For the past ten years I have suffered the evil effects of what might be termed chronic constipation; my skin became yellow and my liver was all out of order; I tried all the remedies that could be obtained, and that was all I could do, after finding no permanent relief from regular medicine treatment, and finally commenced using your remedies. I first tried the Pills and at the end of one week my bowels had attained a regularity and healthy action unknown for years. I was so pleased with the effect that I concluded to try a bottle of your Bitters, and although I have not entirely used the first bottle, I am so perceptibly improved and toned up that I write you giving this voluntary testimonial to the excellence of your remedies.

10 Yours truly, E. J. CAMPBELL.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the cause of the affection, and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Beware of medicines of similar names, lately introduced. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Sample bottle, 10 cents. *

SAMPLE STORE.—Special Agency and Commission business. For cheap CLOTHING and FURNISHING Goods as good value for your money as it is possible for any one in this city to give call on S. H. GLOVER, Bossi's Building, Johnson street, opposite Oriental alley. Having conducted for the last 3½ years the business of the "Commission Store" I am acquainted with the requirements of the public and am enabled to offer them GREAT INDUCEMENTS to purchase. I hope to see my old friends and customers at my new location. Will soon begin the manufacture of clothing to order. *

MESSRS. BAGNALL & CO. have made an extensive addition to their music establishment in order to make room for a large importation of Pianos, Organs, Violins and other Musical Instruments. This well-known emporium will now be replete with all that can be desired in the musical line. Grand, Square and Upright Pianos from London, Paris, Dresden and New York (about thirty to select from.) Organs from thirty-five dollars; Pianos sold on the instalment plan; also, for hire or exchange. On hand, a large stock of Pictures. Picture Frames made to order, cheap. *

FRESH AND NEW.—No old stock to be had at the White House. Price and quality is such that goods sell quick. The few who do not yet know the fact will soon do so. *

IMPORTANT TO CASH BUYERS.—The ten per cent. discount for cash allowed at the London House will be continued until further notice. *

Customs Blanks for Duty, Warehouse, ex-Warehouse, etc., in full supply at *The Colonist* office, adjoining Postoffice. *

DR. C. E. GEIGER.—Homœopathic physician and surgeon, treats all diseases of every description. Office, Government st. below Fort. *

NO DISCOUNT.—No one asks discount on goods bought at the White House. The wonder is that prices are so low when dry goods have advanced so much. *

MUNICIPAL.

PROPOSED LOAN FOR WATER WORKS PURPOSES.

THE MAYOR AND COUNCIL BEG to place before the Ratepayers the scheme of the Water Works Engineer for putting the City Water Works in a complete condition.

To carry out the work a loan of $70,000 is necessary, and the following particulars place the matter as clearly as possible before the Ratepayers for their judgment thereon. Should the loan be effected and the work carried out the increase in water rents resulting therefrom will be about 20 per cent. This increase within two years will be ample to meet the amount annually required for interest and sinking fund of the loan. The Water Works at present are heavily indebted to the City for amounts taken from general revenue for reconstruction of the head works. This expenditure was necessary in order to continue the present supply of water and to prevent the entire destruction of the previously constructed works at Beaver Lake. The said expenditure has absorbed nearly the whole of the surplus revenue of the City for the current year, and should it not be repaid by means of a loan further works on streets will be impossible without increased taxation. The loan of $70,000 is intended to carry out the scheme of the Water Works Engineer and to repay to the general revenue for public works the amount already expended at the dam and elsewhere, which is nearly $15,000.

The Ratepayers are referred to the Engineer's report published in *The Colonist* on March 28th and to the following scheme.

CITY HALL, 22nd March, 1880.

To His Worship the Mayor
and Municipal Council.

GENTLEMEN,—In compliance with the resolutions requesting me to draught a scheme for the extension of mains and a better supply of water for the high levels of the City, I have the honor to report that after taking into consideration the probable large increase of population, and to guard against the necessity of being compelled to enlarge the main conduit pipe for many years,

I would suggest that it will be necessary to adopt the principle of a high and low service reservoir as I find that the high service reservoir to be effective must be constructed at an elevation above the level of the water in Elk Lake, and in order to obtain the delivery of the greatest quantity of water in the City and to effectively supply the high levels I would suggest that the 11 inch main be extended from Douglas street along Pandora street, say to the neighborhood of the Royal Hospital, as that would give an elevation of 135 feet above high water mark sufficiently high to supply all the thickly populated parts of the City.

A reservoir built at the point suggested would have the following advantages: The level of the water in the reservoir would be 58 feet below the level of the water in Elk Lake, and 48 feet will be available for the delivery of water from the above source which will give a theoretical delivery of 37,000 gallons per hour; running continually will give a supply sufficient for a population of 30,000 inhabitants allowing 25 gallons per head per day and by discharging 37,000 gallons per hour 10 feet above the level of the water in Reservoir and by causing it to pass through a hydraulic engine it will develop sufficient power to raise 3,000 gallons per hour through a 6 inch pipe into the high service reservoir which may be built on the high rock at the top of Fort street, at an elevation of 200 feet above high water mark, or 8 feet above the level of the water in Elk Lake, and that quantity would be sufficient for a population of 3,000 inhabitants. It is intended that there will be no connection between the service pipes of high and low service reservoirs except in case of fire. As to size of reservoirs required, I would suggest that the low service reservoir be built to hold 1,500,000 gallons, or, say, 140 feet square and 12 feet deep, and the high service one to hold 60,000 gallons, or, say, 30 feet square and 12 feet deep; and while selecting the best plan for the construction of said reservoirs I may add that in all well regulated cities it is an established principle that in building reservoirs to contain water for domestic use they should be built so as to be able to contain the greatest quantity of water in the smallest possible area and covered so as to exclude the light, as light is very injurious to water stored in a reservoir and intended for domestic use; and to carry out that principle I propose to build the reservoirs by blasting out 4 feet of the rock and using the rock provided by that means for building the balance of the wall, which would be 8 feet high, and that will make the reservoir 12 feet deep, the roof to be supported by cast iron columns. The cost of carrying out and completing the above scheme will not exceed $50,000, to which must be added $10,000 which will be required to complete the filter beds; but should you see fit to adopt the proposed scheme I am prepared to furnish you detailed plans and specifications for the same.

In conclusion I may add that I am aware that it is generally accepted as a fact that there is a natural reservoir at the head of Fort street and that there is nothing to do but to turn the water into it; but I find that to attempt to carry the water to one common reservoir that would partially supply the high levels the difference between the level of the water in reservoir and level of water in Elk Lake is so small, being only 25 feet, the difference in the quantity of water delivered in the city by comparison would be to one common reservoir at the high level, *but not sufficiently high to be effective for all the buildings*, and from a head of 25 feet the main conduit pipe will deliver 23,000 gallons per hour, and by the proposed scheme from a head of 48 feet the main conduit pipe will deliver 37,000 per hour, 3,000 o which will be effective for the highes buildings on the high levels, while the r would also be a saving in pipe as well a a more effective pressure on the city mai n in case of fire. I am aware that Gold stream has still some advocates who believe that the supply should have been obtained from that source; but without stopping to discuss that point I may say that, from whatever source the supply is obtained, the proposed scheme is equally required by all.

Respectfully submitted,
(Signed) ALEX. HENDRY,
Supt. and Engineer.

A BYLAW

To enable the Corporation of the City of Victoria to raise the sum of ($70,000) Seventy Thousand Dollars for the purposes therein set forth.

WHEREAS THE MUNICIPAL COUNCIL of the Corporation of the City of Victoria has resolved to raise the sum of Seventy Thousand Dollars to pay off certain debts due in respect of the Water Works of the said City and to extend the said Water Works system into the suburbs of the said City.

And whereas it will require the sum of Six Thousand Three Hundred and Forty Dollars to be raised annually by special rate for the payment of the said debt and interest, as is hereinafter mentioned.

And whereas the amount of the whole rateable property of the said Corporation of the City of Victoria according to the last revised Assessment Roll being for the year 1879 was $2,655,820, irrespective of any future increase of the rateable property of the Municipality and of any income in the nature of tolls, interest or dividends from the work, and also irrespective of any income from the temporary investments of the sinking fund or of any part thereof.

And whereas for paying the interest and creating a yearly sinking fund for paying the said principal of $70,000 and interest as hereinafter mentioned, it will require an equal annual special rate of one-fourth of one per cent. on the dollar.

BE IT THEREFORE ENACTED by the Mayor and Council of the Corporation of the City of Victoria:

1. That it shall be lawful for the Mayor of the City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of $70,000, and cause the same to be paid into the hands of the Treasurer of the said Corporation for the purpose and with the object above recited.

2. That it shall be lawful for the said Mayor to cause any number of debentures to be made for such sums of money as may be required not less than $100 each, and that the said debentures shall be sealed with the seal of the said Corporation of the City of Victoria and be signed by the said Mayor.

3. That the said debentures shall be made payable in twenty-five years at the farthest from the day hereinafter mentioned for this Bylaw to take effect at the office of the Treasurer of the Corporation of the said City of Victoria, and shall have attached to them coupons for the payment of the interest.

4. That the said debentures shall bear interest at and after the rate of Seven per cent. per annum from the date thereof, which interest shall be payable half-yearly at the office of the Treasurer of the Municipality.

5. That for the purpose of forming a sinking fund for the payment of the said debentures and the interest at the rate aforesaid to become due thereon, an equal special rate of one-fourth of one per cent. on the dollar shall, in addition to all other rates, be raised, levied and collected in each year upon all rateable property in the said Municipality during the continuance of the said debentures or any of them.

6. Clause two of the "Victoria Revenue Bylaw, 1875," as amended by the "Water Works Debenture and Revenue Bylaw Amendment Bylaw, 1877," and further amended by "The Bylaw to Authorize the Raising of Twenty Thousand Dollars, 1878," is hereby further amended by striking out the words "eight-tenths" and substituting the words "eleven-twentieths."

7. It shall be lawful for the said Municipal Council from time to time to purchase any of the said debentures, and such debentures shall be so expressed as to entitle the said Council to redeem and purchase the same on paying the amount thereof and interest due thereon to the date of such purchase to the holders thereof, and all debentures so repurchased shall be forthwith cancelled and destroyed, and no re-issue of debentures shall be made in consequence of such repurchase.

8. That this Bylaw shall take effect and come into operation upon the 1st day of July, A. D. 1880.

9. This Bylaw may be cited for all purposes as "The Bylaw to Authorize the Raising of Seventy Thousand Dollars, 1880."

Passed the Municipal Council this Nineteenth day of May, A. D. 1880.

DYSENTERY, CHOLERA FEVER, AGUE, COUGHS, COLDS.

DR. J. COLLIS BROWNE'S
(Ex Army Medical Staff.)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE. *See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1869, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.

LACHINE CANAL.

NOTICE TO MACHINIST CONTRACTORS.

SEALED TENDERS ADDRESSED TO THE UNdersigned (Secretary of Railways and Canals) and endorsed "Tender for Lock Gates, Lachine Canal," will be received at this office until the arrival of the Eastern and Western Mails on THURSDAY the 3rd day of JUNE next, for the construction of gates and the necessary machinery connected with them, for the new locks on the Lachine Canal.

Plans, Specifications and General Conditions can be seen at this office on and after THURSDAY the 20th day of MAY next, where forms of tender can also be obtained.

Parties tendering are expected to provide the special tools necessary for, and to have a practical knowledge of, works of this class, and are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and residence of each member of the same; and, further, an accepted bank cheque for a sum equal to $250, for the gates of each lock, must accompany each tender, which sum shall be forfeited if the party tendering declines entering into contract for the work at the rates and on the terms stated in the offer submitted.

The cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

For the due fulfilment of the contract the party or parties whose tender it is proposed to accept will be notified that their tender is accepted subject to a deposit of *five per cent.* of the bulk sum of the contract—of which the sum sent in with the tender will be considered a part—to be deposited to the credit of the Receiver-General within *eight days* after the date of the notice.

Ninety per cent. only of the progress estimates will be paid until the completion of the work.

This Department does not, however, blind itself to accept the lowest or any tender.

By Order, F. BRAUN,
Dept. of Railways and Canals, Secretary.

MEDICAL.

DR. SPINNEY & CO'S
DISPENSARY,
No. 11 KEARNEY STREET, SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

Remember that procrastination is the thief of time so

COME AND BE HEALED!

It matters not what you troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P. S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10.00
